The following is an examiner's statement of reasons for allowance:

Applicant's "consisting of" in claim 1 excludes all ingredients not specified in the claim. Doran requires silica, reactive compounds etc. which are now excluded by applicant's claims. It would not have been obvious to exclude these materials from Doran. It is noted that applicant's own examples no longer fall within the bounds of the amended claims due to their "extra" ingredients. Claims 10 and 11 using both "comprising" and "consisting of" language is interpreted as being "consisting of" in accordance with applicant's arguments.

The examiner accepts that some consider paraformaldehyde and hexamethylenetetramine to be forms of formaldehyde.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
